

Winter Weather Preparation

- Stay tuned to local news and [Sky Harbor Info and Alerts Facebook Group](#).
- Contact Property Management Company or Owner for Instructions on delayed checkout due to impassible roads.
- Be prepared with extra food and water in the event that the roads are not passable. While most cabins have fireplaces to stay warm, they also have wells which need electricity to pump water.
- Remember Roads will become impassible in the mountains before they will in town. Prepare before an event, do not attempt to drive down the mountain or plan to return to the cabin if it has started to snow or ice.
- **DO NOT DRIVE ON SKY HARBOR ROADS UNTIL THEY ARE CLEAR AND SAFE TO DRIVE.** Sky Harbor POA is only responsible for trying to keep roads clear. Wrecked and abandoned vehicles will halt the clearing of roads. Tow trucks will clear the main roads before clearing mountain roads.
- If you do not have experience driving in winter weather, mountain roads can be especially hazardous.
- 4 Wheel Drive and All Wheel Drive vehicles are recommended and necessary for some roads.
- Sky Harbor contains 35 Road Miles, 73 Roads, and approximately 1200 lots. Kings Branch Road and Manis Hollow Road are not owned or maintained by Sky Harbor. Silver Poplar, School House Gap, Rose Pass are the main roads which will be cleared first.
